# About this Reference

Kaba Ilco Corp, the world's largest manufacturer of key blanks and key machines, is proud to offer the latest key blank reference; the Ilco Construction Equipment Key Blank Reference. We wish to thank the numerous sources that have provided assistance in preparing this reference.

In this reference information is organized by **Manufacturer**, **Use** (ignition, lift, equipment, etc.), **Identification** (any markings/identifying codes on the original key and/or the

switch/lock that uses the key), **Cuts/Code** (This may identify either the physical cuts on the key or the key code as identified in the manufacturers code series lists.), **Key Blank Number** and a column containing **Notes** that may be of benefit in identifying or duplicating.

If you know of any equipment/keys that we have missed, please submit the information to [info@irm.kaba.com](mailto:info@irm.kaba.com) and we will include it in the next edition.

## Table of Contents

Manufacturer	Page No.	Manufacturer	Page No	Manufacturer	Page No..
Advance	3	Hyster	5	Omni	8
Allmand	3	Hyundai	5	Perkins	8

# More fine products from Kaba Ilco ...

**KD50C** - Remarkable speed and accuracy in a superbly crafted machine. Cuts single sided keys in as little as five seconds! The vise jaws are engineered to grip even the most troublesome double-sided auto keys. Loaded with features every user will appreciate. Superior design provides outstanding cutting accuracy and dependable, long term performance.

**Bravo III with EZ Jaw™** - A sturdy machine designed to deliver years of service. The Bravo III features quickly to rotatable, EZ-Grip 4-position vise jaws, twin carriage shafts, a safety release carriage, and a micrometer adjustable tracing guide. Precision machined parts and ergonomic design provide for unsurpassed accuracy and ease

**Matrix S** - Precision control in all three axis provide the ability to duplicate laser and dimple style keys with ease. The Matrix vise jaws handle a wide variety of keys without the need for adapters. Many types of commercial and automotive keys now use keys that can be duplicated only on a Matrix style key machine. Includes electronic adjustment feature. Cutters available for cutting various specialty key types.

The  to your success
